

2026 NCEPU "Green Energy Youth Leadership Camp"

About NCEPU

- Founded in 1958.
- **"The Cradle of Chinese Electric Engineers"**.
- Over 60% of the graduates work in energy industry.
- **Full chain of energy discipline.**
- **Chinese first Renewable Energy School.**
- Jointly established by the Ministry of Education and the Council. Our university council members include China Electricity Council and 12 major electric power enterprises, 9 of which are listed in 2025's Global Fortune 500.

Camp Overview

- **Duration:** 1 July 2026 to 11 July 2026
- **Registration deadline:** 30 April 2026
- **Address:** Beijing, China

Course Overview

- In the important process of advancing the construction of a **Community with a Shared Future for Mankind** globally, NCEPU, as the **Leading Chinese University** in the field of **"Energy Science"** and **"Energy Transition"**, will focus on the theme of green energy, and carry out a series of academic lectures, power plant visits and cultural exchange activities. Through this camp, students will have the opportunity to learn more about the development and application of green energy technology, discuss future trends and challenges in the energy field, and enhance their knowledge of China's green energy development.
- **Course Contents:**
 1. **Lectures, Laboratory & Company Tours**
Explore and learn about cutting-edge green energy science and technology.
 2. **Practical Courses**
Participate in power companies visits to discuss and look forward to the future development of the energy industry.
 3. **Cultural Activities**
Experience the deep heritage and modern charm of Chinese culture in the blend of ancient and modern.
